Index to Volume 58

PHYSICAL THERAPY

Pages in PHYSICAL THERAPY are numbered consecutively from January through December. Pages in Volume 58, for the year 1978, are numbered 1 through 1588.

	Pages		Pages
January	1–144	July	841–944
February	145–256	August	945–1048
March	257–404	September	1049–1176
April	405–536	October	1177–1314
May	537–680	November	1315–1434
June	681–840	December	1435–1588

Subject Index

Administration

Characteristics of physical therapy role models. Jacobson BF. 58:560–566, May
Minimal care concept: An alternative for the management of arthritis. Lopopolo RB, Emery F, Daniels JC, Fernandes B. 58:700–703, June
Physicians' attitude toward early intervention. Esposito RR. 58:160–167, February
Prevention of electrical shock hazards in physical therapy. Arledge RL. 58:1215–1217, October
Six design factors for planning and evaluating regional continuing education. Koewing JR, Howes BR, Metz D. 58:168–174, February
Techniques for locating, filing, and retrieving scientific information (Special Communication). Lehmkuhl D. 58:579–584, May
Who should make moral policy decisions in health care? Purtilo RB. 58:1076–1081, September

Ambulation Aids

Ambulation aid for a bent knee spica (Suggestion from the Field). Reid BC. 58:448, April
Device to assist ambulation (Suggestion from the Field). Cerza PF, Rood RG. 58:1218–1219, October

American Physical Therapy Association

Accreditation—Vehicle for change: Part I. (Special Communication). Evans PR. 58:151–155, February
Accreditation—Vehicle for change: Part II. (Special Communication). Evans PR. 58:439–444, April
American Physical Therapy Association officers, committees, and section chairmen. 58:337–339, March
American Physical Therapy Association officers, committees, task forces, and section chairmen. 58:1350–1352, November
APTA awards. 58:763–770, June
APTA bylaws. 58:1225–1236, October
Award of Excellence for Minority Recruitment and Services. 58:1348, November
Dorothy Briggs Memorial Scientific Inquiry Award. 58:1347, November
Golden Pen Award. 58:1347, November
Jack Walker Award. 58:1349, November
Journal Abstractor Awards. 58:1347, November
Lucy Blair Service Award. 58:1346, November
Marian Williams Award for Research in Physical Therapy. 58:1349, November
Mary McMillan Lecture Award. 58:1348, November
Mary McMillan Scholarship Awards. 58:1348, November
Membership qualifications prescribed by the board of directors. 58:1237, October
Membership statistics. 58:1353, November
1978 Presidential Address. Bartlett RC. 58:1325–1333, November
Nominees for national office—1978. 58:328–335, March
Report of the House of Delegates session. 58:1334–1337, November

Amputations

Below-knee amputee knee extension force-time and moment characteristics. Soderberg GL. 58:966–971, August
Initial gait training of the patient with an above-knee amputation (Clinical Report). Batzdorff J, Frankel B. 58:575–578, May

Arthritis

Minimal care concept: An alternative for the management of arthritis. Lopopolo RB, Emery F, Daniels JC, Fernandes B. 58:700–703, June
Objective documentation of increased walking tolerance (Case Report). Brennan GP. 58:697–699, June

Biofeedback

Commentary on electromyographic feedback in physical therapy. Gonnella C, Kalish R, Hale G. 58:11–14, January

Index to Volume 58

PHYSICAL THERAPY

Pages in PHYSICAL THERAPY are numbered consecutively from January through December. Pages in Volume 58, for the year 1978, are numbered 1 through 1588.

	Pages		Pages
January	1–144	July	841–944
February	145–256	August	945–1048
March	257–404	September	1049–1176

Jack Walker Award. 58:1349, November
Journal Abstractor Awards. 58:1347, November
Lucy Blair Service Award. 58:1346, November
Marian Williams Award for Research in Physical Therapy. 58:1349, November
Mary McMillan Lecture Award. 58:1348, November
Mary McMillan Scholarship Awards. 58:1348, November
Membership qualifications prescribed by the board of directors. 58:1237, October
Membership statistics. 58:1353, November
1978 Presidential Address. Bartlett RC. 58:1325–1333, November
Nominees for national office—1978. 58:328–335, March
Report of the House of Delegates session. 58:1334–1337, November

Amputations

Below-knee amputee knee extension force-time and moment characteristics. Soderberg GL. 58:966–971, August
Initial gait training of the patient with an above-knee amputation (Clinical Report). Batzdorff J, Frankel B. 58:575–578, May

Arthritis

Minimal care concept: An alternative for the management of arthritis. Lopopolo RB, Emery F, Daniels JC, Fernandes B. 58:700–703, June
Objective documentation of increased walking tolerance (Case Report). Brennan GP. 58:697–699, June

Biofeedback

Commentary on electromyographic feedback in physical therapy. Gonnella C, Kalish R, Hale G. 58:11–14, January

Effects of electromyographic feedback training on motor control in spastic cerebral palsy. Skrotzky K, Gallenstein JS, Osternig LR. 58:547–552, May
Essential consideration in the use of EMG biofeedback (Clinical Report). Wolf SL. 58:25–31, January
Use of augmented sensory feedback to achieve symmetrical standing. Wannstedt GT, Herman RM. 58:553–559, May

Biomechanics

Use of augmented sensory feedback to achieve symmetrical standing. Wannstedt GT, Herman RM. 58:553–559, May

Cardiovascular

Cardiac rehabilitation: An overview. Hoskins TA, Habasevich RA. 58:1183–1190, October
Chest physical therapy procedures in open heart surgery. Howell S, Hill JD. 58:1205–1214, October
Clinical indicators of endurance (Special Communication). Lunsford BR. 58:704–709, June
"Let's have a heart to heart talk . . . " (Special Communication). Silvestri B. 58:445–446, April
Objective documentation of increased walking tolerance (Case Report). Brennan GP. 58:697–699, June

Cerebral Palsy

Dynamic trunk stabilizer for children with cerebral palsy (Suggestion from the Field). Montgomery P, Gauger J. 58:447, April
Effects of electromyographic feedback training on motor control in spastic cerebral palsy. Skrotzky K, Gallenstein JS, Osternig LR. 58:547–552, May
Effects of respiratory exercises on the vital capacity and forced expiratory volume in children with cerebral palsy. Rothman JG. 58:421–425, April
Measurement for curriculum building for multiply handicapped children. Whitney PL. 58:415–420, April
Mobility module counteracting the tonic labyrinthine reflex in a cerebral palsied child (Suggestion from the Field). Wat L. 58:880–881, July
Neurodevelopmental treatment approach for teaching swimming to cerebral palsied children. Harris SR. 58:979–983, August
Semicircular canal stimulation in cerebral palsied children. Chee FKW, Kreutzberg JR, Clark DL. 58:1071–1075, September
Sensory dysfunction in children who toe walk. Montgomery P, Gauger J. 58:1195–1204, October

Clinical Education

Experience with a consortium for exploring and arranging clinical education programs. Kondela PM, Hatmaker T. 58:156–158, February

Communication

Patient compliance: Practical implications for physical therapists. Mayo NE. 58:1083–1090, September
Self-produced videotapes aid in home instruction (Suggestion from the Field). Magill G. 58:1092, September
Six design factors for planning and evaluating regional continuing education. Koewing JR, Howes BR, Metz D. 58:168–174, February
Use of the Journal in an introductory course of physical therapy (Suggestion from the Field). Silvestri B. 58:984–986, August
Who should make moral policy decisions in health care? Purtilo RB. 58:1076–1081, September
Writing book reviews. Aiken D. 58:1361–1362, November
Writing good abstracts: It's a tough job (Special Communication). Pal AC. 58:175–177, February

Education

Accreditation—Vehicle for change: Part I. (Special Communication). Evans PR. 58:151–155, February
Accreditation—Vehicle for change: Part II. (Special Communication). Evans PR. 58:439–444, April
Evaluation of patient education programs. Rand PH. 58:851–856, July
How to care for your neck (Suggestion from the Field). Horter TS. 58:184–185, February
Six design factors for planning and evaluating regional continuing education. Koewing JR, Howes BR, Metz D. 58:168–174, February
Use of the Journal in an introductory course of physical therapy (Suggestion from the Field). Silvestri B. 58:984–986, August

Educational Programs

Characteristics of physical therapy role models. Jacobson BF. 58:560–566, May
Educational programs in physical therapy. 58:1244–1249, October
Educational programs leading to professional qualification in physical therapy. 58:588–593, May
Educational programs leading to professional qualification in physical therapy. 58:1244–1250, October

Electrotherapy

Antibiotic iontophoresis in the treatment of ear chondritis (Clinical Report). LaForest NT, Cofrancesco C. 58:32–34, January
Effect of deep heat on isometric strength. Chastain PB. 58:543–546, May
Salicylate iontophoresis as an alternative treatment for persistent thigh pain following hip surgery (Case Report). Garzione JE. 58:570–571, May

EMG

Commentary on electromyographic feedback in physical therapy. Gonnella C, Kalish R, Hale G. 58:11–14, January
Electromyographic study of three parts of the gluteus medius muscle during functional activities. Soderberg GL, Dostal WF. 58:691–696, June
EMG feedback as a muscle reeducation technique: A controlled study. Middaugh SJ. 58:15–22, January

Essential consideration in the use of EMG biofeedback (Clinical Report). Wolf SL. 58:25–31, January
Kinematic and electromyographic differences between men and women during skill acquisition: A preliminary study. Hobart DJ, Vorro J. 58:956–965, August
Reflex and voluntary electromyographic activity in patients with hemiparesis. Norton BJ, Sahrmann SA. 58:951–955, August
Stretch reflex of the biceps and brachioradialis muscles in patients with upper motor neuron syndrome. Sahrmann SA, Norton BJ 58:1191–1194, October

Equipment

Ambulation aid for a bent knee spica (Suggestion from the Field). Reid BC. 58:448, April
Armrest modification for support of paretic or paralyzed upper extremity (Suggestion from the Field). Pifer RG. 58:182–183, February
Dental water irrigating device used for cleaning decubitus ulcers. Nourse AM, Myers W. 58:1219, October
Device to assist ambulation (Suggestion from the Field). Cerza PF, Rood RG. 58:1218–1219, October
Dynamic trunk stabilizer for children with cerebral palsy. (Suggestion from the Field). Montgomery P, Gauger J. 58:447, April
Home paraffin program (Suggestion from the Field). Chingren PJ. 58:449, April
Light-emitting diode system for the analysis of gait: A method and selected clinical examples. Soderberg GL, Gabel RH. 58:426–432, April
Mobility module counteracting the tonic labyrinthine reflex in a cerebral paisied child (Suggestion from the Field). Wat L. 58:880–881, July
Modification of the long-armed goniometer (Suggestion from the Field). Smith AR, Barnes WJ. 58:180, February
Monitoring stimulation parameters from clinical transcutaneous nerve stimulators (Suggestion from the Field). Roth MG, Wolf SL. 58:586–587, May
Patient operated wheelchair drop back (Suggestion from the Field). Wasson LA, Thibodaux LR, Clay M. 58:585–586, May
Prevention of electrical shock hazards in physical therapy. Arledge RL. 58:1215–1217, October
Prone standing board for use in the classroom (Suggestion from the Field). Cohen E. 58:1091, September
Self-produced videotapes aid in home instruction (Suggestion from the Field). Magill G. 58:1092, September
Silence is golden (Suggestion from the Field). Berger EM, Gordon S. 58:181, February
Skater sled for retarded persons (Suggestion from the Field). Capecchi J. 58:181, February
Wheelchair insert for severely handicapped children (Suggestion from the Field). Wisely LD, Coss RL, Kniffen E. 58:879–880, July

Evaluation

Clinical indicators of endurance (Special Communication). Lunsford BR. 58:704–709, June
Comparison of two developmental instruments in evaluating children with Down's syndrome. Eipper DS, Azen SP. 58:1066–1069, September
Evaluation of patient education programs. Rand PH. 58:851–856, July
Gross assessment as a screening technique (Clinical Report). Sullivan PJ, Harris PG. 58:572–574, May
Measurement for curriculum building for multiply handicapped children. Whitney PL. 58:415–420, April
Modification of the long-armed goniometer (Suggestion from the Field). Smith AR, Barnes WJ. 58:180, February
Objective documentation of increased walking tolerance (Case Report). Brennan GP. 58:697–699, June
Plantar flexor strength testing using the Cybex Isokinetic Dynamometer. Falkel J. 58:847–850, July
Primitive reflex profile: A pilot study. Capute AJ, Accardo PJ, Vining EPG, Rubenstein JE, Walcher JR, Harryman S, Ross A. 58:1061–1065, September
Reliability of goniometer measurements. Boone DC, Azen SP, Lin CM, Spence C, Baron C, Lee L. 58:1355–1360, November
Testing hip extensor strength when passive hip extension is restricted (Suggestion from the Field). Woodman RM, Wilbert K. 58:882, July

Gait

Effect of verticality perception on body balance in normal subjects. Cody KA, Nelson AJ. 58:35–41, January
Initial gait training of the patient with an above-knee amputation (Clinical Report). Batzdorff J, Frankel B. 58:575–578, May
Light-emitting diode system for the analysis of gait: A method and selected clinical examples. Soderberg GL, Gabel RH. 58:426–432, April
Paraplegia ambulatory training using Craig-Scott orthoses (Clinical Report). Huitt CT, Gwyer JL. 58:976–978, August
Sensory dysfunction in children who toe walk. Montgomery P, Gauger J. 58:1195–1204, October
Use of augmented sensory feedback to achieve symmetrical standing. Wannstedt GT, Herman RM. 58:553–559, May

Geriatrics

Medication of the elderly: Effect on response to physical therapy (Special Communication). Simonson W. 58:178–179, February

Hemiplegia

Reflex and voluntary electromyographic activity in patients with hemiparesis. Norton BJ, Sahrmann SA. 58:951–955, August

Hydrotherapy

Dental water irrigating device used for cleaning decubitus ulcers. Nourse AM, Myers W. 58:1219, October

Neurodevelopmental treatment approach for teaching swimming to cerebral palsied children. Harris SR. 58:979–983, August
Silence is golden (Suggestion from the Field). Berger EM, Gordon S. 58:181, February

Kinesiology

Normal upper extremity kinesiology. Perry J. 58:265–278, March

Mary McMillan Lecture

Thirteenth Mary McMillan Lecture: Building Winning Teams. Moore ML. 58:1339–1346, November

Neurology

Central control insufficiency: I. Pathomechanics. Perry J. 58:304–305, March
Central control insufficiency: II. Extraneous motion: A treatment approach. Guess V. 58:306–312, March
Combined motor and peripheral sensory insufficiency: I. Pathomechanics. Perry J. 58:286–287, March
Motor insufficiency: I. Pathomechanics. Perry J. 58:281–282, March
Pathomechanical relationship between lesion specificity and residual function. Perry J. 58:279–281, March
Reliability of the tonic vibratory reflex. Goldfinger GH, Schoon CG. 58:46–50, January

Orthotics

Central control insufficiency: I. Pathomechanics. Perry J. 58:304–305, March
Central control insufficiency: II. Extraneous motion: A treatment approach. Guess V. 58:306–312, March
Central control insufficiency: III. Disturbed motor control and sensation: A treatment approach emphasizing upper extremity orthoses. Wilson D, Caldwell CB. 58:313–320, March
Combined motor and peripheral sensory insufficiency: I. Pathomechanics. Perry J. 58:286–287, March
Combined motor and peripheral sensory insufficiency: II. Use of orthoses in treating adult brachial plexus injuries. Barber LM. 58:287–294, March
Combined motor and peripheral sensory insufficiency: III. Management of spinal cord injury. McKenzie MW, Buck GL. 58:294–303, March
Motor insufficiency: I. Pathomechanics. Perry J. 58:281–282, March
Motor insufficiency: II. Orthotic management of upper extremity motor unit loss. Barber LM. 58:282–285, March
Normal upper extremity kinesiology. Perry J. 58:265–278, March
Paraplegia ambulatory training using Craig-Scott orthoses (Clinical Report). Huitt CT, Gwyer JL. 58:976–978, August
Pathomechanical relationship between lesion specificity and residual function. Perry J. 58:279–281, March
Review of cervical orthoses. Hart DL, Johnson RM, Simmons EF, Owen J. 58:857–860, July
Yale cervical orthosis: An evaluation of its effectiveness in restricting cervical motion in normal subjects and a comparison with other cervical orthoses. Johnson RM, Hart DL, Owen JR, Lerner E, Chapin W, Zeleznik R. 58:865–871, July
Yale cervical orthosis: Fabrication. Zeleznik R, Chapin W, Hart D, Smith H, Southwick WO, Zito M. 58:861–864, July

Paraplegia

Paraplegia ambulatory training using Craig-Scott orthoses (Clinical Report). Huitt CT, Gwyer JL. 58:976–978, August

Pediatrics

Central control insufficiency: II. Extraneous motion: A treatment approach. Guess V. 58:306–312, March
Comparison of two developmental instruments in evaluating children with Down's syndrome. Eipper DS, Azen SP. 58:1066–1069, September
Dynamic trunk stabilizer for children with cerebral palsy (Suggestion from the Field). Montgomery P, Gauger J. 58:447, April
Effects of electromyographic feedback training on motor control in spastic cerebral palsy. Skrotzky K, Gallenstein JS, Osternig LR. 58:547–552, May
Effects of respiratory exercises on the vital capacity and forced expiratory volume in children with cerebral palsy. Rothman JG. 58:421–425, April
Measurement for curriculum building for multiply handicapped children. Whitney PL. 58:415–420, April
Mobility module counteracting the tonic labyrinthine reflex in a cerebral palsied child (Suggestion from the Field). Wat L. 58:880–881, July
Neurodevelopmental treatment approach for teaching swimming to cerebral palsied children. Harris SR. 58:979–983, August
Primitive reflex profile: A pilot study. Capute AJ, Accardo PJ, Vining EPG, Rubenstein JE, Walcher JR, Harryman S, Ross A. 58:1061–1065, September
Prone standing board for use in the classroom (Suggestion from the Field). Cohen E. 58:1091, September
Sensory dysfunction in children who toe walk. Montgomery P, Gauger J. 58:1195–1204, October
Severely handicapped children in the public schools: A new frontier for the physical therapist. Connolly BH, Anderson RM. 58:433–438, April
Skater sled for retarded persons (Suggestion from the Field). Capecchi J. 58:181, February
Survey of physical therapy provided to infants under three months of age. Pringle ME, Kaminski SA, Raymond GL. 58:1055–1060, September
Wheelchair insert for severely handicapped children (Suggestion from the Field). Wisely LD, Coss RL, Kniffen E. 58:879–880, July

Physical Therapy Fund

Physical therapy fund. 58:474–476, April

Psychology

Physicians' attitude toward early intervention. Esposito RR. 58:160–167, February

Publications and Audiovisuals

Publications and audiovisuals. 58:77–84, January; 486–489, April; 1005–1009, August; 1259–1264, October

Research

Below-knee amputee knee extension force-time and moment characteristics. Soderberg GL. 58:966–971, August

Effect of deep heat on isometric strength. Chastain PB. 58:543–546, May

Effect of verticality perception on body balance in normal subjects. Cody KA, Nelson AJ. 58:35–41, January

Effects of electromyographic feedback training on motor control in spastic cerebral palsy. Skrotzky K, Gallenstein JS, Osternig LR. 58:547–552, May

Electromyographic study of three parts of the gluteus medius muscle during functional activities. Soderberg GL, Dostal WF. 58:691–696, June

EMG feedback as a muscle reeducation technique: A controlled study. Middaugh SJ. 58:15–22, January

Isometric torque of the finger extensors at the metacarpophalangeal joints. Barnes WJ, Allison JD. 58:42–45, January

Kinematic and electromyographic differences between men and women during skill acquisition: A preliminary study. Hobart DJ, Vorro J. 58:956–965, August

Light-emitting diode system for the analysis of gait: A method and selected clinical examples. Soderberg GL, Gabel RH. 58:426–432, April

Mathematical modeling of rewarming after cold therapy. Avet LM. 58:872–878, July

Physicians' attitude toward early intervention. Esposito RR. 58:160–167, February

Postoperative pain and transcutaneous electrical nerve stimulation: A model to critique literature and develop documentation schema. Gersh MR. 58:1463–1466, December

Reflex and voluntary electromyographic activity in patients with hemiparesis. Norton BJ, Sahrmann SA. 58:951–955, August

Reliability of the tonic vibratory reflex. Goldfinger GH, Schoon CG. 58:46–50, January

Semicircular canal stimulation in cerebral palsied children. Chee FKW, Kreutzberg JR, Clark DL. 58:1071–1075, September

Stretch reflex of the biceps and brachioradialis muscles in patients with upper motor neuron syndrome. Sahrmann SA, Norton BJ. 58:1191–1194, October

Survey of physical therapy provided to infants under three months of age. Pringle ME, Kaminski SA, Raymond GL. 58:1055–1060, September

Techniques for locating, filing, and retrieving scientific information (Special Communication). Lehmkuhl D. 58:579–584, May

Use of augmented sensory feedback to achieve symmetrical standing. Wannstedt GT, Herman RM. 58:553–559, May

Respiratory

Chest physical therapy procedures in open heart surgery. Howell S, Hill JD. 58:1205–1214, October

Effects of respiratory exercises on the vital capacity and forced expiratory volume in children with cerebral palsy. Rothman JG. 58:421–425, April

Functional approach to chest physical therapy (Clinical Report). Reinisch ES. 58:972–975, August

Self-Assessment Quizzes

Self-assessment quiz. 58:461, April; 607, May; 773, June; 903–904, July; 1000–1001, August; 1106, September; 1257, October; 1377, November; 1511, December

Spinal Cord Injuries

Combined motor and peripheral sensory insufficiency: III. Management of spinal cord injury. McKenzie MW, Buck GL. 58:294–303, March

Patient operated wheelchair drop back (Suggestion from the Field). Wasson LA, Thibodaux LR, Clay M. 58:585–586, May

Prone standing board for use in the classroom (Suggestion from the Field). Cohen E. 58:1091, September

State Board Exams

State board examinations. 58:593–594, May; 1249–1250, October

Tests and Measurements

Clinical indicators of endurance (Special Communication). Lunsford BR. 58:704–709, June

Comparison of two developmental instruments in evaluating children with Down's syndrome. Eipper DS, Azen SP. 58:1066–1069, September

Gross assessment as a screening technique (Clinical Report). Sullivan PJ, Harris PG. 58:572–574, May

Mathematical modeling of rewarming after cold therapy. Avet LM. 58:872–878, July

Plantar flexor strength testing using the Cybex Isokinetic Dynamometer. Falkel J. 58:847–850, July

Primitive reflex profile: A pilot study. Capute AJ, Accardo PJ, Vining EPG, Rubenstein JE, Walcher JR, Harryman S, Ross A. 58:1061–1065, September

Reliability of goniometer measurements. Boone DC, Azen SP, Lin CM, Spence C, Baron C, Lee L. 58:1355–1360, November

Testing hip extensor strength when passive hip extension is restricted (Suggestion from the Field). Woodman RM, Wilbert K. 58:882, July

Therapeutic Exercise

Below-knee amputee knee extension force-time and moment characteristics. Soderberg GL. 58:966–971, August

Cardiac rehabilitation: An overview. Hoskins TA, Habasevich RA. 58:1183–1190, October
Central control insufficiency: II. Extraneous motion: A treatment approach. Guess V. 58:306–312, March
Chest physical therapy procedures in open heart surgery. Howell S, Hill JD. 58:1205–1214, October
Clinical indicators of endurance (Special Communication). Lunsford BR. 58:704–709, June
Clinical report on the use of specific TENS units. McKelvy PL. 58:1474–1477, December
Commentary on electromyographic feedback in physical therapy. Gonnella C, Kalish R, Hale G. 58:11–14, January
Electrode placements for transcutaneous electrical nerve stimulation. Mannheimer JS. 58:1455–1462, December
Electromyographic study of three parts of the gluteus medius muscle during functional activities. Soderberg GL, Dostal WF. 58:691–696, June
EMG feedback as a muscle reeducation technique: A controlled study. Middaugh SJ. 58:15–22, January
Functional approach to chest physical therapy. (Clinical Report). Reinisch ES. 58:972–975, August
How to care for your neck (Suggestion from the Field). Horter TS. 58:184–185, February
Kinematic and electromyographic differences between men and women during skill acquisition: A preliminary study. Hobart DJ, Vorro J. 58:956–965, August
Measurement for curriculum building for multiply handicapped children. Whitney PL. 58:415–420, April
Minimal care concept: An alternative for the management of arthritis. Lopopolo RB, Emery F, Daniels JC, Fernandes B. 58:700–703, June
Neurodevelopmental treatment approach for teaching swimming to cerebral palsied children. Harris SR. 58:979–983, August
Patient compliance: Practical implications for physical therapists. Mayo NE. 58:1083–1090, September
Reflex and voluntary electromyographic activity in patients with hemiparesis. Norton BJ, Sahrmann SA. 58:951–955, August
Self-produced videotapes aid in home instruction (Suggestion from the Field). Magill G. 58:1092, September
Semicircular canal stimulation in cerebral palsied children. Chee FKW, Kreutzberg JR, Clark DL. 58:1071–1075, September
Severely handicapped children in the public schools: A new frontier for the physical therapist. Connolly BH, Anderson RM. 58:433–438, April
Spray and stretch for myofascial pain (Case Report). Nielsen AJ. 58:567–569, May
Testing hip extensor strength when passive hip extension is restricted (Suggestion from the Field). Woodman RM, Wilbert K. 58:882, July
Transcutaneous electrical nerve stimulation: An adjunct in the pain management of Guillain-Barré Syndrome (Case Report). McCarthy JA, Zigenfus RW. 58:23–24, January

Theses and Dissertations

Theses and dissertations. 58:119–123, January

Transcutaneous Electrical Nerve Stimulation

Bibliography on electroanalgesia. Hamer DH, Howson DC. 58:1485–1492, December
Clinical report on the use of specific TENS units. McKelvy PL. 58:1474–1477, December
Electrode placements for transcutaneous electrical nerve stimulation. Mannheimer JS. 58:1455–1462, December
Introduction to the use of transcutaneous electrical nerve stimulation devices. Lampe GN. 58:1450–1454, December
Monitoring stimulation parameters from clinical transcutaneous nerve stimulators (Suggestion from the Field). Roth MG, Wolf SL. 58:586–587, May
Peripheral neural excitability: Implications for transcutaneous electrical nerve stimulation. Howson DC. 58:1467–1473, December
Perspectives on central nervous system responsiveness to transcutaneous electrical nerve stimulation. Wolf SL. 58:1443–1449, December
Postoperative pain and transcutaneous electrical nerve stimulation: A model to critique literature and develop documentation schema. Gersh MR. 58:1463–1466, December
Relationship of selected clinical variables to current delivered during transcutaneous electrical nerve stimulation. Wolf SL, Gersh MR, Kutner M. 58:1478–1485, December
Transcutaneous electrical nerve stimulation: An adjunct in the pain management of Guillain-Barré Syndrome (Case Report). McCarthy JA, Zigenfus RW. 58:23–24, January

World Confederation for Physical Therapy

World confederation for physical therapy: A special report. 58:478–479, April
World confederation for physical therapy: A special report. Watts NT. 58:363–364, March
World confederation for physical therapy: President's message. Michels E. 58:197, February
World confederation for physical therapy: The ethical principles for physical therapists have been ratified by all member-organizations of the world confederation for physical therapy. 58:365, March

Author Index

A

ACCARDO PJ: see Capute AJ
AIKEN D: Writing book reviews. 58:1361–1362, November
ALLISON JD: see Barnes WJ
ANDERSON RM: see Connolly BH
ARLEDGE RL: Prevention of electrical shock hazards in physical therapy. 58:1215–1217, October
AVET LM: Mathematical modeling of rewarming after cold therapy. 58:872–878, July
AZEN SP: see Boone DC
AZEN SP: see Eipper DS

B

BARBER LM: Combined motor and peripheral sensory insufficiency: II. Use of orthoses in treating adult brachial plexus injuries. 58:287–294, March
BARBER LM: Motor insufficiency: II. Orthotic management of upper extremity motor unit loss. 58:282–285, March
BARNES WJ: see Smith AR
BARNES WJ, Allison JD: Isometric torque of the finger extensors at the metacarpophalangeal joints. 58:42–45, January
BARON C: see Boone DC
BARTLETT RC: 1978 Presidential Address. 58:1325–1334, 1978
BATZDORFF J, Frankel B: Initial gait training of the patient with an above-knee amputation (Clinical Report). 58:575–578, May
BERGER EM, Gordon S: Silence is golden (Suggestion from the Field). 58:181, February
BOONE DC, Azen SP, Lin CM, Spence C, Baron C, Lee L: Reliability of goniometer measurements. 58:1355–1360, November
BRENNAN GP: Objective documentation of increased walking tolerance (Case Report). 58:697–699, June
BUCK GL: see McKenzie MW

C

CALDWELL CB: see Wilson D
CAPECCHI J: Skater sled for retarded persons (Suggestion from the Field). 58:181, February
CAPUTE AJ, Accardo PJ, Vining EPG, Rubenstein JE, Walcher JR, Harryman S, Ross A: Primitive reflex profile: A pilot study. 58:1061–1065, September
CERZA PF, Rood RG: Device to assist ambulation (Suggestion from the Field). 58:1218–1219, October
CHAPIN W: see Johnson RM
CHAPIN W: see Zeleznik R
CHASTAIN PB: Effect of deep heat on isometric strength. 58:543–546, May
CHEE FKW, Kreutzberg JR, Clark DL: Semicircular canal stimulation in cerebral palsied children. 58:1071–1075, September
CHINGREN PJ: Home paraffin program (Suggestion from the Field). 58:449, April
CLARK DL: see Chee FKW
CLAY M: see Wasson LA
CODY KA, Nelson AJ: Effect of verticality perception on body balance in normal subjects. 58:35–41, January
COFRANCESCO C: see LaForest NT
COHEN E: Prone standing board for use in the classroom (Suggestion from the Field). 58:1091, September
CONNOLLY BH, Anderson RM: Severely handicapped children in the public schools: A new frontier for the physical therapist. 58:433–438, April
COSS RL: see Wisely LD

D

DANIELS JC: see Lopopolo RB
DOSTAL WF: see Soderberg GL

E

EIPPER DS, Azen SP: Comparison of two developmental instruments in evaluating children with Down's syndrome. 58:1066–1069, September
EMERY F: see Lopopolo RB
ESPOSITO RR: Physicians' attitude toward early intervention. 58:160–167, February
EVANS PR: Accreditation—Vehicle for change: Part I (Special Communication). 58:151–155, February
EVANS PR: Accreditation—Vehicle for change: Part II (Special Communication). 58:439–444, April

F

FALKEL J: Plantar flexor strength testing using the Cybex Isokinetic Dynamometer. 58:847–850, July
FERNANDES B: see Lopopolo RB
FRANKEL B: see Batzdorff J

G

GABEL RH: see Soderberg GL
GALLENSTEIN JS: see Skrotzky K
GARZIONE JE: Salicylate iontophoresis as an alternative treatment for persistent thigh pain following hip surgery (Case Report). 58:570–571, May
GAUGER J: see Montgomery P
GERSH MR: Postoperative pain and transcutaneous electrical nerve stimulation: A model to critique literature and develop documentation schema. 58:1463–1466, December
GERSH MR: see Wolf SL
GOLDFINGER GH, Schoon CG: Reliability of the tonic vibratory reflex. 58:46–50, January
GONNELLA C, Kalish R, Hale G: Commentary on electromyographic feedback in physical therapy. 58:11–14, January
GORDON S: see Berger EM
GUESS V: Central control insufficiency: II. Extraneous motion: A treatment approach. 58:306–312, March
GWYER JL: see Huitt CT

H

HABASEVICH RA: see Hoskins TA
HALE G: see Gonnella C
HAMER DH, Howson DC: Bibliography on electroanalgesia. 58:1485–1492, December
HARRIS PG: see Sullivan PJ
HARRIS SR: Neurodevelopmental treatment approach for teaching swimming to cerebral palsied children. 58:979–983, August
HARRYMAN S: see Capute AJ
HART DL: see Johnson RM
HART DL: see Zeleznik R
HART DL, Johnson RM, Simmons EF, Owen J: Review of cervical orthoses. 58:857–860, July
HATMAKER T: see Kondela PM
HERMAN RM: see Wannstedt GT
HILL JD: see Howell S
HOBART DJ, Vorro J: Kinematic and electromyographic differences between men and women during skill acquisition: A preliminary study. 58:956–965, August

HORTER TS: How to care for your neck (Suggestion from the Field). 58:184–185, February
HOSKINS TA, Habasevich RA: Cardiac rehabilitation: An overview. 58:1183–1190, October
HOWELL S, Hill JD: Chest physical therapy procedures in open heart surgery. 58:1205–1214, October
HOWES BR: see Koewing JR
HOWSON DC: Peripheral neural excitability: Implications for transcutaneous electrical nerve stimulation. 58:1467–1473, December
HOWSON DC: see Hamer DH
HUITT CT, Gwyer JL: Paraplegia ambulatory training using Craig-Scott orthoses (Clinical Report). 58:976–978, August

J

JACOBSON BF: Characteristics of physical therapy role models. 58:560–566, May
JOHNSON RM: see Hart DL
JOHNSON RM, Hart DL, Owen JR, Lerner E, Chapin W, Zeleznik R: Yale cervical orthosis: An evaluation of its effectiveness in restricting cervical motion in normal subjects and a comparison with other cervical orthoses. 58:865–871, July

K

KAMINSKI SA: see Pringle ME
KALISH R: see Gonnella C
KNIFFEN E: see Wisely LD
KOEWING JR, Howes BR, Metz D: Six design factors for planning and evaluating regional continuing education. 58:168–174, February
